

MEK

COMPANY PROFILE

The Company MEK Structural Engineering Pvt. Ltd. established in 1966 has emerged as one of the renowned brands in manufacturing, supplying and exporting multiple storage system and Material Handling Equipments. We offer premium quality storage system products ranging from Pallet Racking System, Slotted Angle Mezzanine Floor, Mobile Compactors Storage System and Ladder Type Cable Tray, Goods lifts, Scissor lifts, Dock leveler which are designed and developed by highly skilful and experienced workers using best grade quality raw material such as mild steel and stainless steel, procured from reliable vendors across the country. We make use of technically advanced machines like CNC Bending Machine, CNC Shearing Machine and Power Press.

Our Products are very popular among our clients due to their excellent quality. These are specially designed for different sectors such as warehouses, factories, industries, workshops, showrooms, shops, supermarkets, hospitals, hotels, educational institutions, banks, libraries, airlines and cargo stations as per client requirement.

MEK

PREMIUM QUALITY STORAGE SYSTEM PRODUCTS
RANGING FROM CABLE TRAY, PALLET RACKS,
MEZZANINE FLOOR, SLOTTED ANGLE RACKS AND
MATERIAL HANDLING EQUIPMENTS

MEK STRUCTURAL ENGINEERING

CAG ADVERTISING : 9810612122, 9871197377

WHERE
QUALITY IS
COMMITMENT

SLOTTED ANGLE RACKS

These have a partition plate together with a label holder and a plate as a stopper to avoid any chance of letting the stored products fall from the rack.

- ① SLOTTED ANGLE STORAGE SYSTEM
- ② STEEL RACK
- ③ PIGEON HOLE RACK

TWO TIER RACK

Providing you the best range of two tier rack system suitable for light, medium and heavy storage application.

- ① TWO TIER STORAGE SYSTEM
- ② TWO TIER HEAVY DUTY RACK
- ③ TWO TIER FLOORING SYSTEM

PALLET & LONG SPAN RACKING SYSTEM

These systems are generally built for storing medium to bulk load, irregular size and Industrial Products, Drums etc.

- ① LONG SPAN RACKING SYSTEM
- ② HEAVY DUTY PALLET RACKING SYSTEM
- ③ PALLET RACK FOR DRUM

CANTILEVER RACK

Cantilever racks manufactured by us are used for storing of long, circular or irregular shaped goods.

- ① CANTILEVER RACKING SYSTEM
- ② AUTOMOBILE CANTILEVER RACK
- ③ MATERIAL HANDLING CANTILEVER RACK

MEZZANINE FLOOR

These can be easily relocated, enlarged with the property of high load bearing overhead levels.

- ① MODULAR MEZZANINE FLOOR
- ② MEZZANINE FLOOR
- ③ SLOTTED ANGLE MEZZANINE FLOOR

TISSUE CULTURE RACK

We manufacture, export and supply various tissue culture racks used in biotechnology and agricultural industry.

- ① TISSUE CULTURE RACK WITH LIGHTING
- ② TISSUE CULTURE RACK FOR DARKROOM
- ③ TISSUE CULTURE MOBILE RACK

FIFO RACKS

FIFO racks are based on material flow storage system. These are easy to setup and are used in managing inventory levels in a warehouse.

- ① FIFO Racks
- ② FIFO Racking System
- ③ FIFO Rack System

DIE MOULD RACK

Specially designed die mould racks are used for heavy duty storage systems. Dies that otherwise are quite troublesome while storing, are stored using these racks.

MOBILE COMPACTOR

Our mobile compactor storage systems are mainly constructed for the space saving purpose as they have multiple racks one over the other and protect goods from dust and insects.

- ① MOBILE COMPACTOR STORAGE
- ② PUSH PULL COMPACTOR STORAGE
- ③ MOBILE COMPACTOR RACK

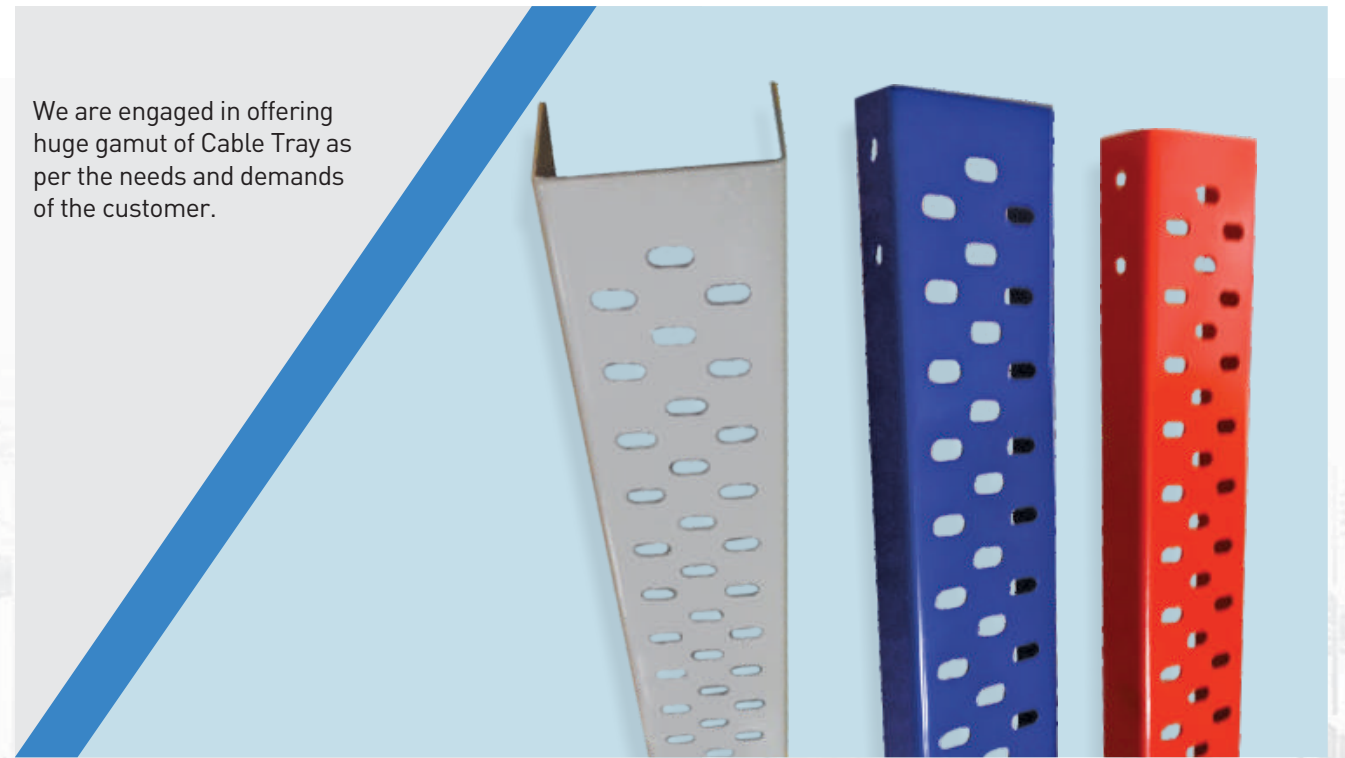

WORKER LOCKER AND OFFICE STOREWELL

The lockers provided by us are of optimum quality with best locking system to cater safe security to the personal belongings of the employees. We ensure scratch proof, corrosion resistant and longer service life storewell used for storage of documents, files and various accessories used in office.

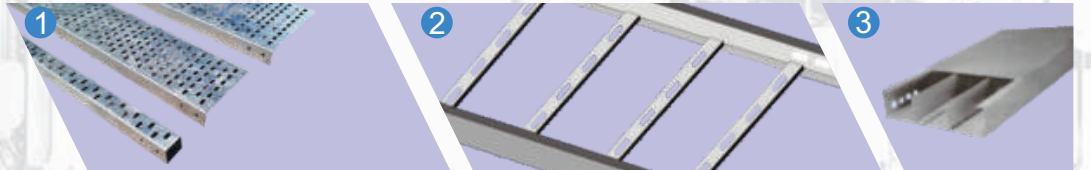

CABLE TRAY

We are engaged in offering huge gamut of Cable Tray as per the needs and demands of the customer.

- ① PERFORATED CABLE TRAY
- ② LADDER TYPE CABLE TRAY
- ③ RACEWAY

METAL BIN

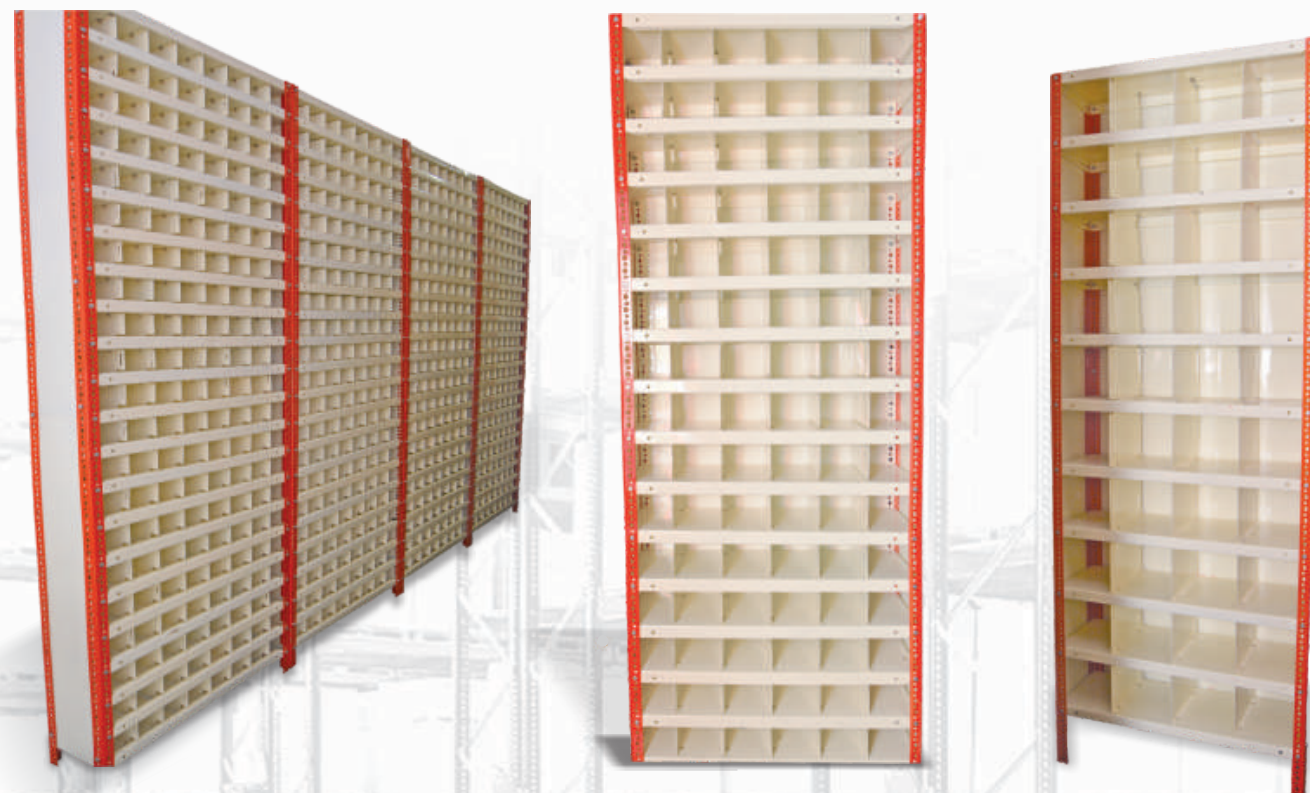

These can be stacked one above the other and can be lifted using rope and crane. These are constructed as per client's specification.

- ① 1 TON BIN
- ② STACKING BIN
- ③ 2 TON BIN

STORAGE SYSTEM FOR AUTOMOBILE WORKSHOP, BODY PARTS AND ACCESSORIES

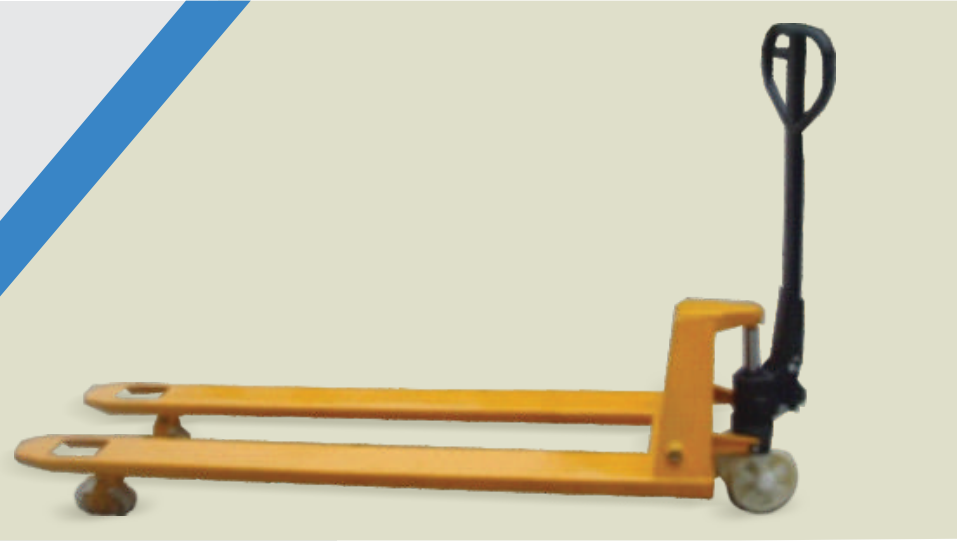

STORAGE SYSTEM FOR AUTOMOBILE WORKSHOP, BODY PARTS AND ACCESSORIES

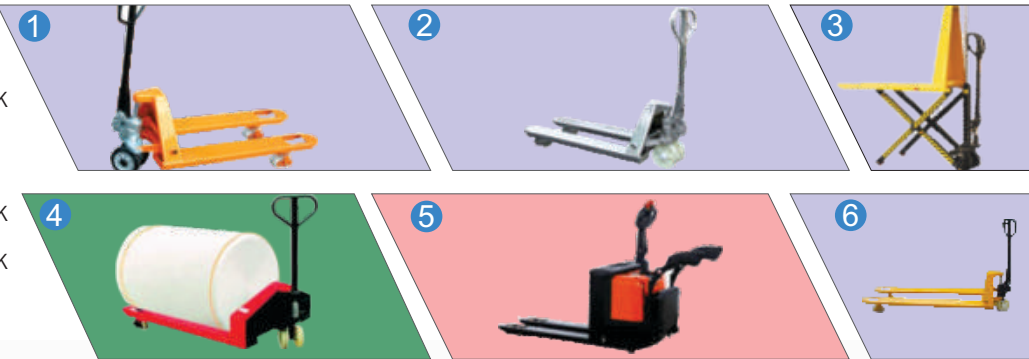

PALLET TRUCKS

We offer finish such as galvanized, powder coated, painted pallet trucks of various sizes and of special material such as stainless steel. These are used to move heavy and light pallets within a warehouse.

- ① HAND OPERATED PALLET TRUCK
- ② STAINLESS STEEL HAND HYDRAULIC PALLET TRUCK
- ③ STANDARD HAND HYDRAULIC HIGH-LIFT PALLET TRUCK
- ④ PAPER ROLL LIFTER HYDRAULIC PALLET TRUCK
- ⑤ ELECTRIC STAND-ON HYDRAULIC PALLET TRUCK
- ⑥ LONG FORK PALLET TRUCK

FULLY ELECTRIC HYDRAULIC STACKER

Fully electric hydraulic stackers are customized and built to the demand. These can be used in automobile showrooms and other industrial applications for carrying goods, drums, etc.

- ① HAND OPERATED STACKER
- ② SEMI ELECTRIC HYDRAULIC STACKER

PIT MOUNT HYDRAULIC SCISSOR LIFT

We are engaged in manufacturing, exporting, supplying a highly effective Pit Mount Hydraulic Scissor Lift in several sizes.

- ① TWO WHEELER LIFT
- ② HIGH RISE SCISSOR LIFT
- ③ HAND OPERATED SCISSOR PLATFORM

GOODS LIFT

Goods Lifts are used in Industries to lift heavy material and transport to different floors.

HYDRAULIC DOCK LEVELER

We are recognized as one of the dominant organizations to provide a wide gamut of hydraulic dock leveler.

MOBILE FLOOR CRANE

Cranes offered by us include mobile floor crane, pillar mount jib crane. These are designed and developed using latest technology and optimum quality raw material.

HYDRAULIC DRUM LIFTER CUM TILTER

These have capability of picking up any drum or dimensionally similar objects vertically from floor or pallet & transport it to the desired destination.

GANTRY CRANE & LIFTER

We are well specialized in manufacturing material handling systems such as Gantry Lifter & Positioner used in engineering workshops, and other industries. And our warehouse trolley is precisely manufactured using excellent quality material.
